

# Parex Resources

Investor Presentation  
*January 2026*

- **Leading Colombian Oil & Gas Company**
- **Value Creation in Colombia since 2009**
- **Sustainable Portfolio with Growth Runway**
- **Strong Return of Capital Track Record**
- **Top-Quartile ESG Performance**

Stock Symbol	TSX:PXT
Shares Outstanding <sup>(1)</sup>	96.0 million
Market Capitalization <sup>(2)</sup>	C\$1.8 billion   US\$1.3 billion
Quarterly Dividend <sup>(3)</sup>	C\$0.385 per share
Dividend Yield <sup>(2)(3)(4)</sup>	8.4%
Average Production <sup>(5)</sup>	~48,606 boe/d
Land Position <sup>(6)</sup>	6.9 million acres

See "Forward-Looking Statements and Financial Outlook" advisory.

(1) As at December 31, 2025.

(2) Based on January 12, 2026 closing price of C\$18.29 per share; US\$ value converted at 0.72.

(3) Based on C\$0.385 per share quarterly dividend.

(4) Supplementary financial measure; annualized dividend per share divided by PXT share price; see advisory.

(5) Average production for October 1, 2025 to December 31, 2025; light & medium crude oil: ~14,835 bbl/d, heavy crude oil: ~32,267 bbl/d, conventional natural gas: ~9,025 mcf/d; rounded for presentation purposes; see January 12, 2026 news release.

(6) Gross; as at December 31, 2024.

# Core Focus Areas for 2026

Focus on portfolio optimization & development while executing multiple, independent exploration projects with substantial upside

## Applying Technology to Maximize Recovery Factor

- Lowers decline rate & maintenance capital requirements
- Ongoing optimization, waterflood and polymer at Cabrestero & LLA-34
- Furthering polymer at LLA-34 in 2026

## Building on Near-Field Exploration Success

- Delivers production with high capital efficiency
- Achieved a 75% success rate at LLA-74 in 2025
- Repeating near-field exploration process at CPO-10 & LLA-111 in 2026

## Unlocking Putumayo Basin

- Source of multi-year drilling inventory
- Significant upside potential with OOIP<sup>(1)</sup> of 1.8 billion bbls, with low recovery factor
- Operations begun in December 2025

## Beginning Foothills Exploration

- Transformational gas-weighted growth opportunity
- Finalized ECP agreements in late 2025
- Plan to spud Floreña Huron well in mid 2026

# Colombia

**~760,000**  
BBL/D

(May 5, 2025); 2025E assumptions: Brent: US\$64.64/bbl WTI: US\$60.97/bbl, NYMEX: US\$4.05/mcf, AECO: C\$2.50/mcf, USD/CAD: 0.720; all USD cash flow per boe netbacks converted to CAD; peer list based on Peters & Co. Canadian Producers coverage list (38 total companies). (3) Includes both direct social investment and Work for Taxes program.

# Colombia-Focused Strategy

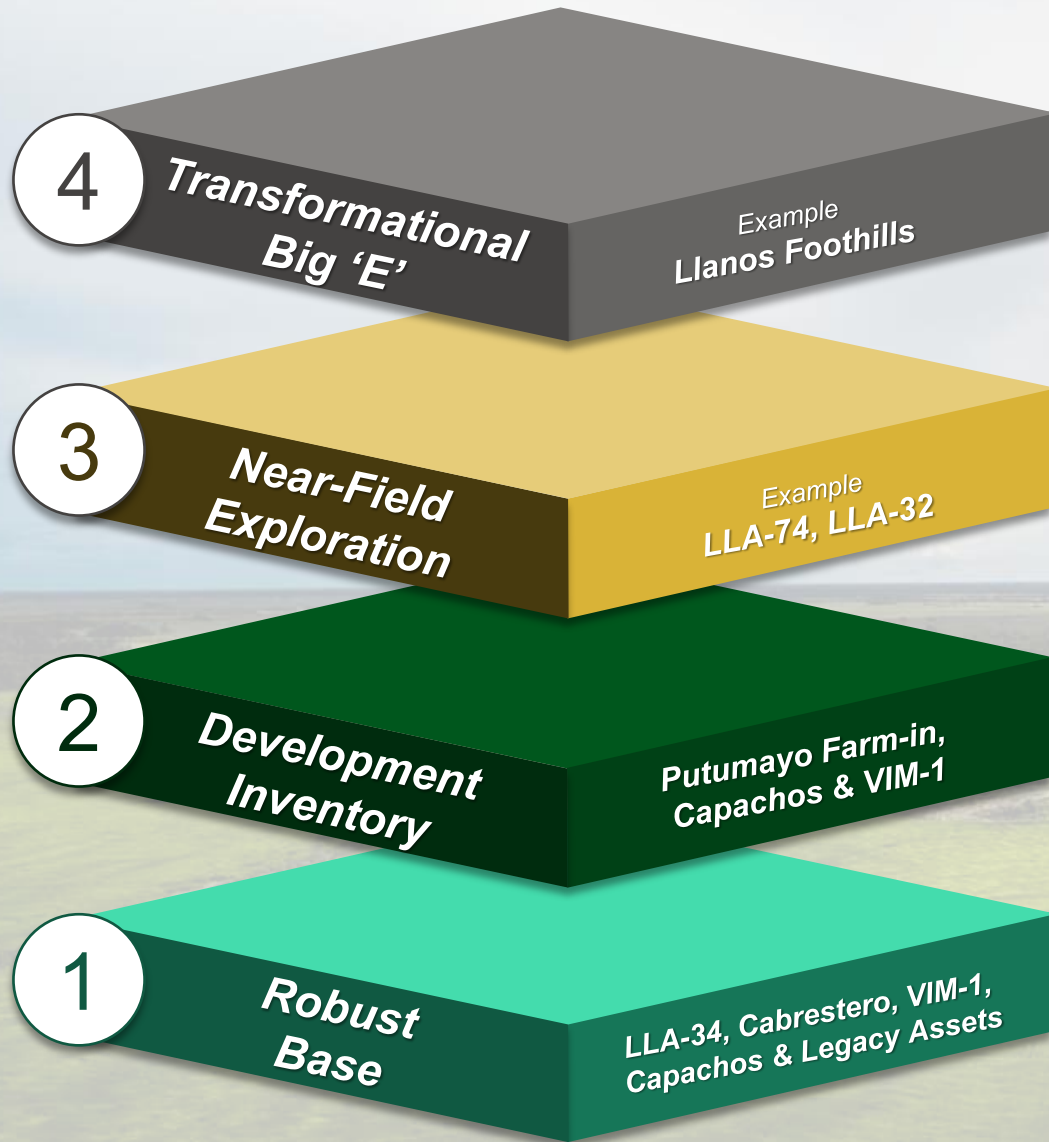

*Parex Resources is 100% focused on Colombia*

# Portfolio Building Blocks

*Robust base anchors the portfolio, with running room & follow-up inventory, plus transformational exploration upside*

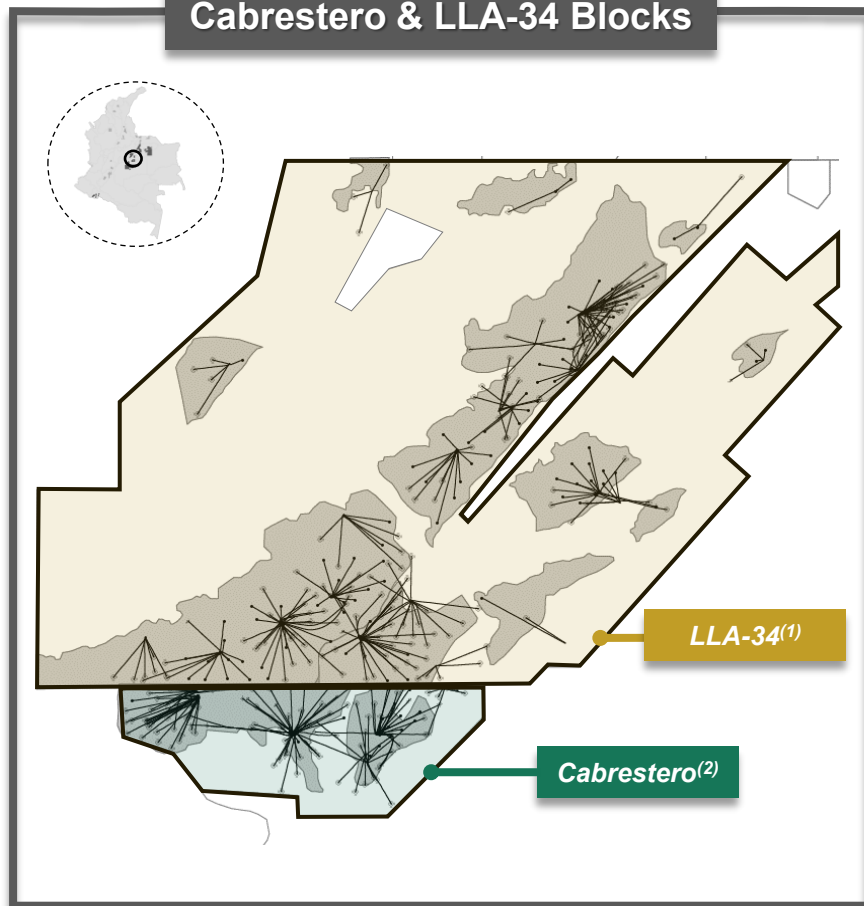

- High-impact exploration
  - Llanos Foothills offers transformational potential
- 
- Prospects are characterized by high rates and quick payouts
  - Continuously replenishing inventory through extensive land position
- 
- Sizable OOIP<sup>(1)</sup>, with plan to apply proven technology (EOR<sup>(2)</sup> focus)
  - Upside potential through bypassed appraisal opportunities
- 
- Applying proven technology: horizontals, waterflooding, polymer
  - Flattening production decline results in lower maintenance capital
  - Generating free cash flow to fund growth & exploration

# Cornerstones of Robust Base: Cabrestero & LLA-34

Maximizing recovery factor to generate strong free cash flow

## Cabrestero & LLA-34 Blocks

## FLATTENING PRODUCTION DECLINE<sup>(3)</sup>

### Cabrestero

- Completed waterflood phase
- Proceeding with full-field polymer

### LLA-34

- Ongoing optimization
- Expanding waterflooding phase
- Commenced initial polymer in 2025

**Flattening production decline at both blocks through waterflood and polymer injection, which is expected to lower go-forward maintenance capital**

# Successful Polymer Injection Pilot at Cabrestero

Promising results leading to full-field polymer expansion, with opportunities for technology replication across portfolio

## CABRESTERO POLYMER PILOT PERFORMANCE<sup>(1)</sup>

(bbl/d)

## Key Highlights

- **Proven Polymer Pilot**
  - Patterns have shown stable performance over the past 1.5 years, demonstrating pilot enhanced and sustained oil rates
  - Results enabled plans for full-field expansion at Cabrestero as well as starting of initial injection at LLA-34
- **Effective Exploitation & Technology Strategy**
  - Tech like horizontals, waterflood and polymer boost recovery, with further upside potential from future tech, such as surfactants
  - Investments in the strategy are reducing decline and minimizing future sustaining capital requirements
  - Strategy can be further replicated, with opportunities existing across portfolio to add barrels at compelling economics

**Portfolio-wide opportunities to use exploitation & technology strategy to increase production, enhance recovery, and add reserves**

# Proving Value through Operational Excellence at Cabretero

*Investment paid out, now positioned for low declines, minimal capital spend & strong free cash flow generation*

## CABRETERO PERFORMANCE VS. RESERVES PROFILE<sup>(1)</sup>

**\$575MM**

Cumulative  
Operating Netback<sup>(2)(3)</sup>

**1.5x Payout**

On \$375MM  
Cumulative Investment<sup>(2)</sup>

**Low Decline**

Flooding Reducing  
Sustaining Capital

**EOR<sup>(4)</sup> Upside**

Potential from Future  
Tech like Surfactants

(kbb/d)

20

► Infills, Waterflooding + Exploration ► Initial Polymer Injection ► Water & Polymer Flood Maintenance

# Putumayo Blocks are Sizable and Underexploited

*Proven exploitation & technology strategy can be replicated to increase production, enhance recovery & add reserves*

OOIP FOR KEY PAREX AREAS (MMBO)<sup>(1)</sup>

## Building Running Room

*19 locations booked (2P)<sup>(3)</sup>*

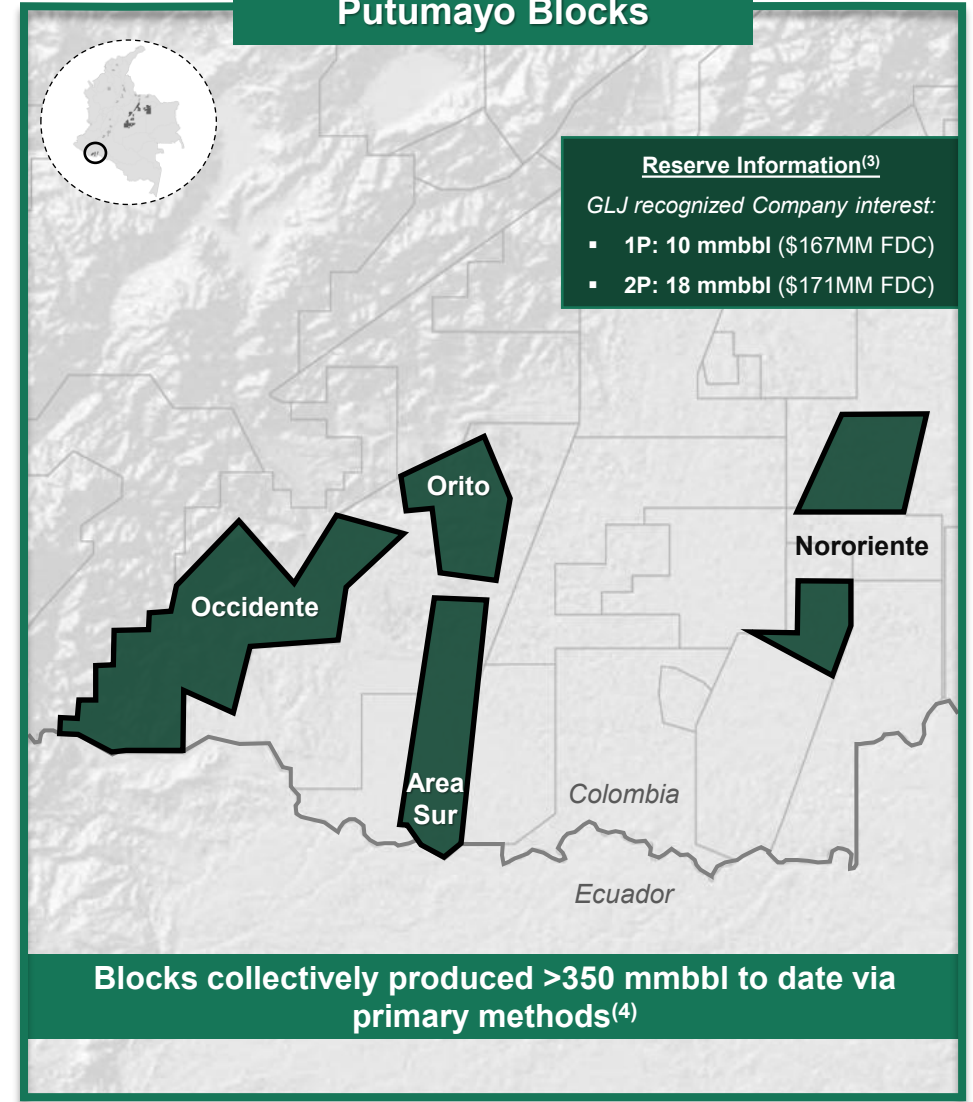

*Incremental upside from bypassed pay*

## Applying Technology Today

*Occidente: horizontal drilling in Caribe*

*Orito: initial waterflood injector in Pepino*

## Putumayo Blocks

See "Forward-Looking Statements and Financial Outlook" advisory. Operator; 50% W.I.  
 (1) Original oil in place; independent reserves report (effective date December 31, 2024). (2) Enhanced oil recovery. (3) See December 11, 2024, news release. (4) Source: Ecopetrol S.A.

# Portfolio Delivers Premium Prospect Funnel

Strategically increased acreage to enable building of a high-quality prospect funnel, with high rates & quick payouts

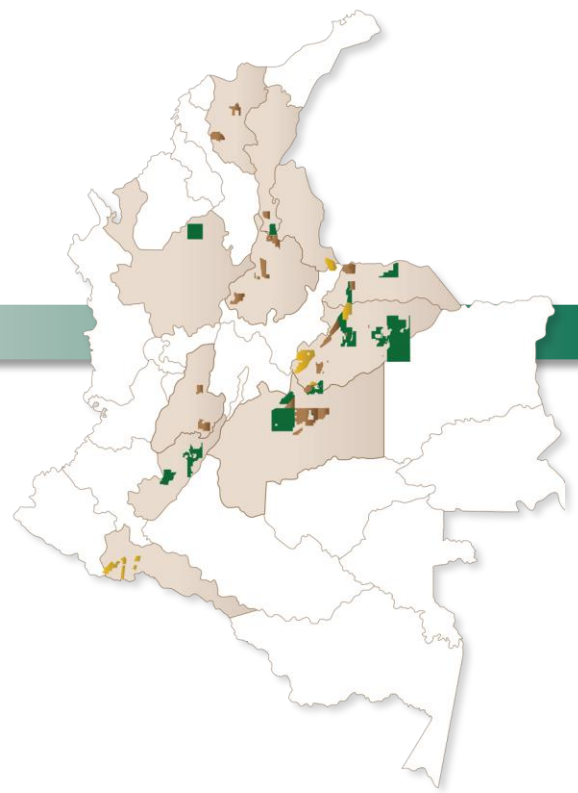

## Increased Land Position by ~4x

Material, Net Acreage Expansion

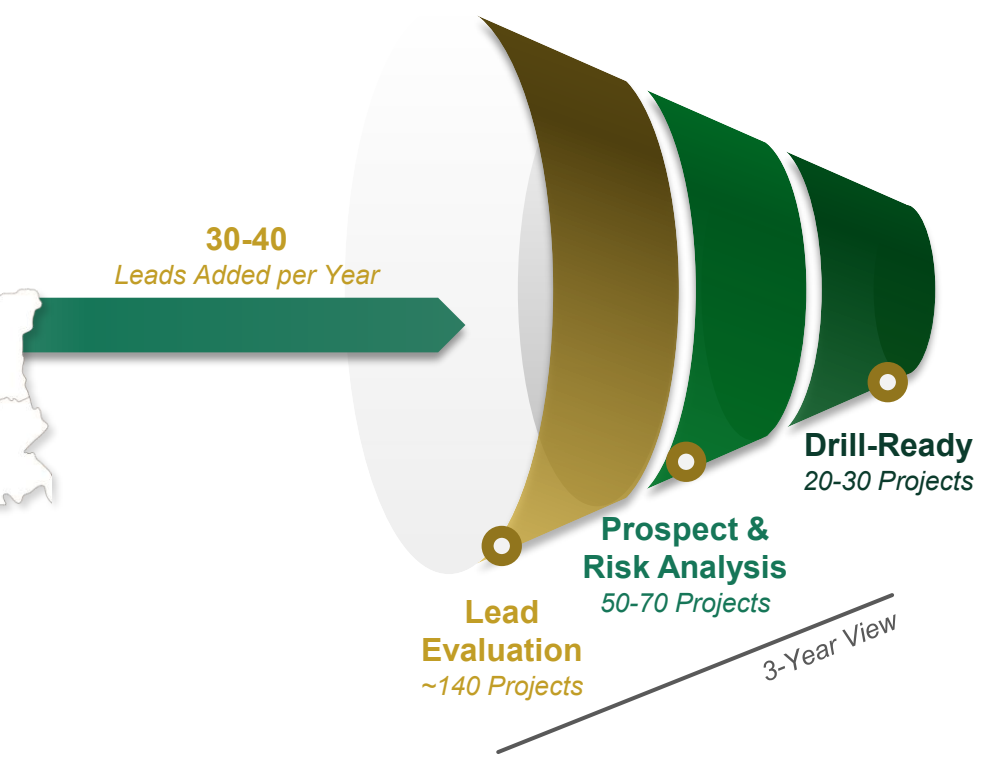

## Today: 6.9 Million Acres

Largest Independent Land Portfolio in Colombia<sup>(1)</sup>

## Premium Prospect Funnel

Replenishing & Increasing Inventory

Parex is replenishing and increasing its inventory while prioritizing drilling capital toward its best-ranked prospects

See "Forward-Looking Statements and Financial Outlook" advisory.  
(1) 6.9 million acres gross; as at December 31, 2024.

# Strong Execution Capability

Successful wells drilled in the Southern Llanos (outside of Cabrestero & LLA-34) exhibit robust performance

## NEAR-FIELD EXPLORATION & FOLLOW-UP WELL PERFORMANCE<sup>(1)</sup>

**~\$6-8 million**  
Average Well Cost

**~1,600 bbl/d**  
Average IP30

**~800 bbl/d**  
Average IP365

**Premium Funnel**  
Continuously  
replenishing inventory

**Near-field exploration and follow-up wells deliver strong profitability with quick paybacks**

See "Forward-Looking Statements and Financial Outlook" and "Oil and Gas Information" advisory.  
(1) Information based on successful Southern Llanos wells from August 2022 to December 2025.

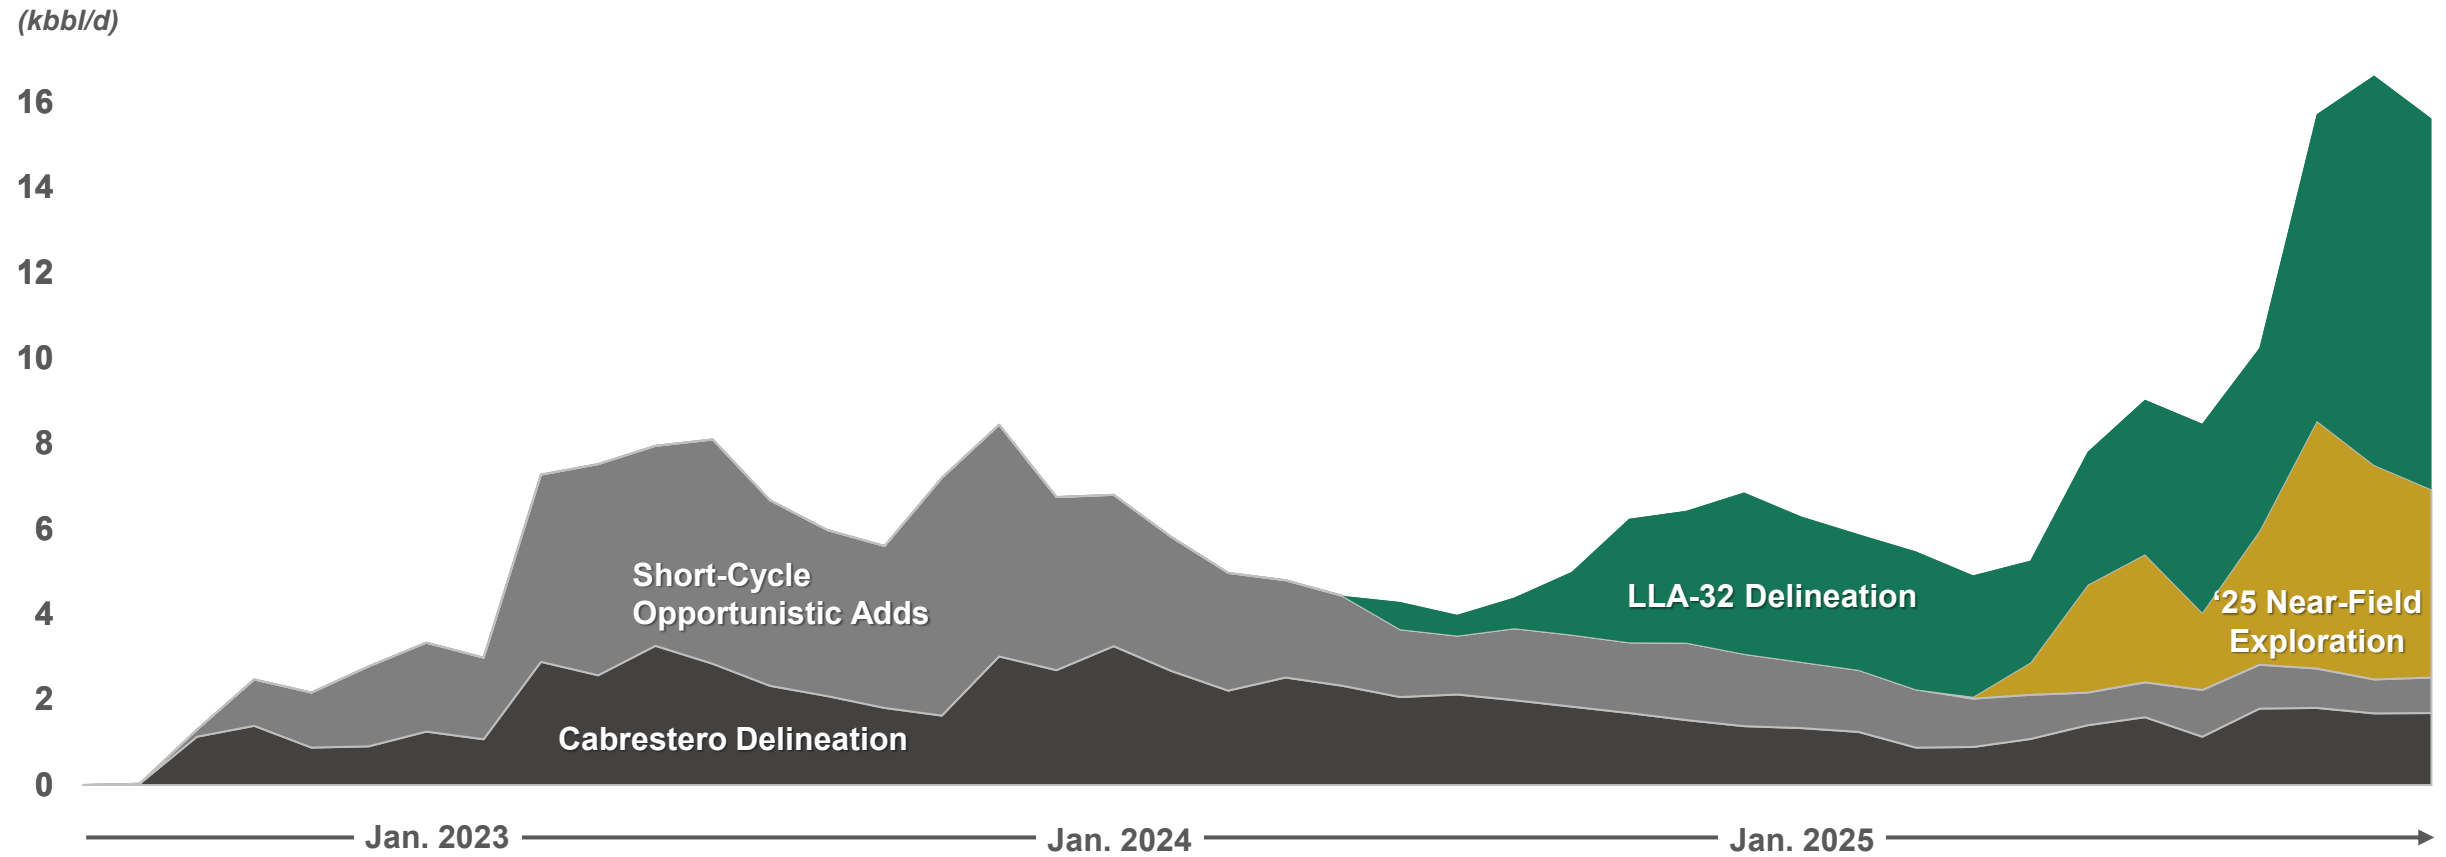

# Successful Execution is Adding to the Foundation

Ongoing success in the Southern Llanos is strengthening the production base & driving near-term growth

NEAR-FIELD EXPLORATION & FOLLOW-UP WELL PERFORMANCE<sup>(1)</sup>

Although characterized by higher initial declines, wells provide fast capital recovery and strengthen the production base

See "Forward-Looking Statements and Financial Outlook" and "Oil and Gas Information" advisory.  
(1) Information based on Southern Llanos wells from August 2022 to December 2025.

# Llanos Foothills: Strategic Alliance with Ecopetrol

*Public-private collaboration to deliver natural gas volume while generating benefits for Colombia & all stakeholders*

**Energy  
Security &  
Transition Fuel**

**50/50  
Strategic  
Partnership**

**World-Class  
Exploration  
Potential**

*As announced December 5, 2025, Parex and its strategic partner Ecopetrol announced an update on their Llanos Foothills exploration program, where a full strategic alliance has effectively been achieved.*

# Llanos Foothills: World-Class Resource Trend

*Provides game-changing potential at an enhanced risk & reward profile*

## PXT Operatorship

*Operatorship highlights track record of technical expertise & stakeholder engagement*

## Proven Resource

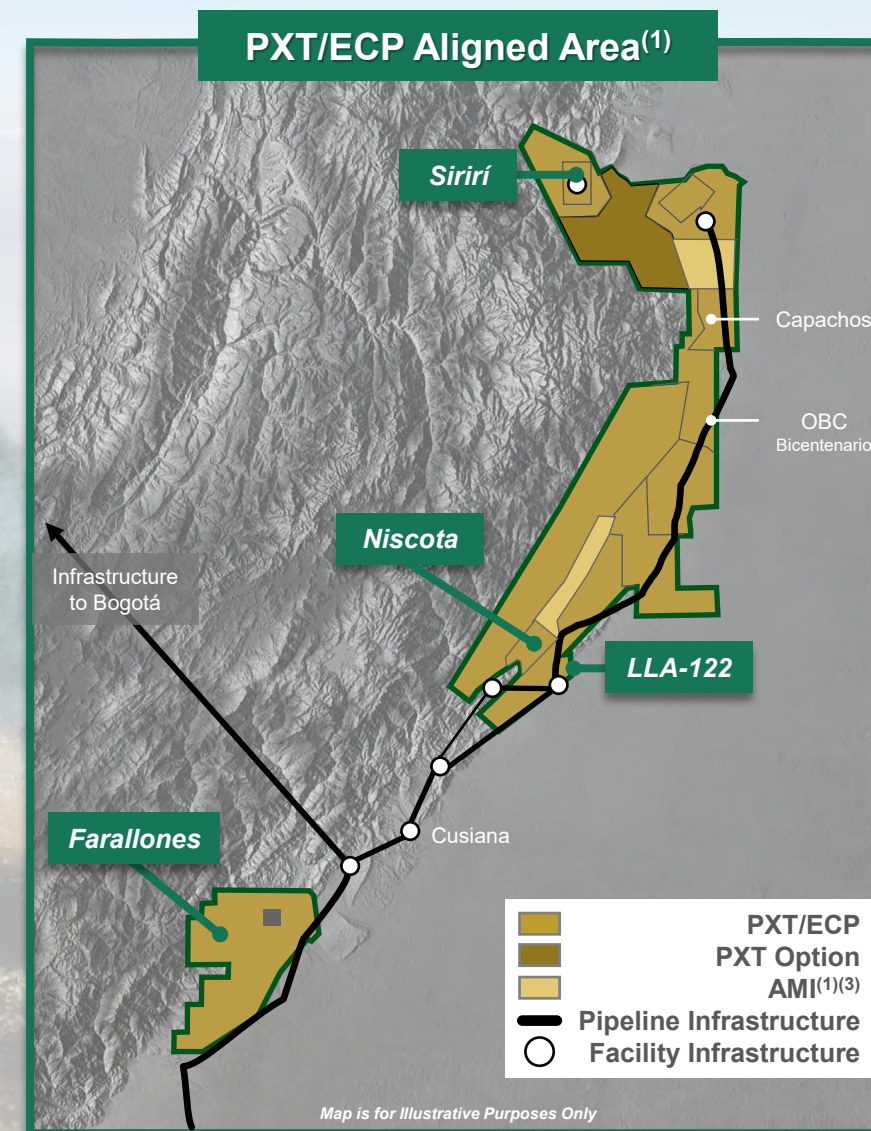

*Cumulative production from area >1.4B bbls oil and 4 TCF gas; peaked at ~450 mbb/d and ~3 bcf/d<sup>(2)</sup>*

## Strategic Infrastructure Position

*In-place, underutilized infrastructure can provide egress for the aligned area and accelerate development*

## High-Graded Portfolio

*Added top-ranked exploration prospects, such as Niscota (Floreña Huron) & Farallones*

# Llanos Foothills: Proven Resource

One of the most prolific areas within Colombia

## LLANOS FOOTHILLS HISTORICAL AVERAGE PRODUCTION<sup>(1)</sup>

## Why Parex is Well-Positioned for Success

### Best-in-Class Prospects

HIGHLY PROSPECTIVE EXPLORATION TARGETS THAT ARE NEIGHBORING MAJOR DISCOVERIES

### Technology & Access

PROVEN OPERATING CAPABILITY AND ABILITY TO ACCESS COMPLEX ENVIRONMENTS

### Attractive Gas Market

GAS UNDERSUPPLIED WITH SUPPORT FROM GOVERNMENT FOR DEVELOPMENT

### Connected to Major Markets

IN-PLACE INFRASTRUCTURE CAN PROVIDE EGRESS TO FAST-TRACK DISCOVERIES TO MARKET

# Llanos Foothills: Success Case Well Example

Successful outcomes are expected to yield industry-leading production, reserves & cash flow

## Type Curve (Gross)<sup>(1)</sup>

## View of Upcoming Prospects (Gross)<sup>(1)</sup>

**~15,000 boe/d**

*Initial rate based on best estimate type curve*

**~50 mmcf/d**  
*Initial gas rate*

**~7,000 bbl/d**  
*Initial oil rate*

**\$40-60MM**  
*Cost estimate based  
on 6-9 month  
drill time*

**40%+**  
*Probability of success  
based on offsets &  
internal view*

**Foothills is a defining opportunity centered on multiple prospects over the coming years,  
each with the potential for transformational growth**

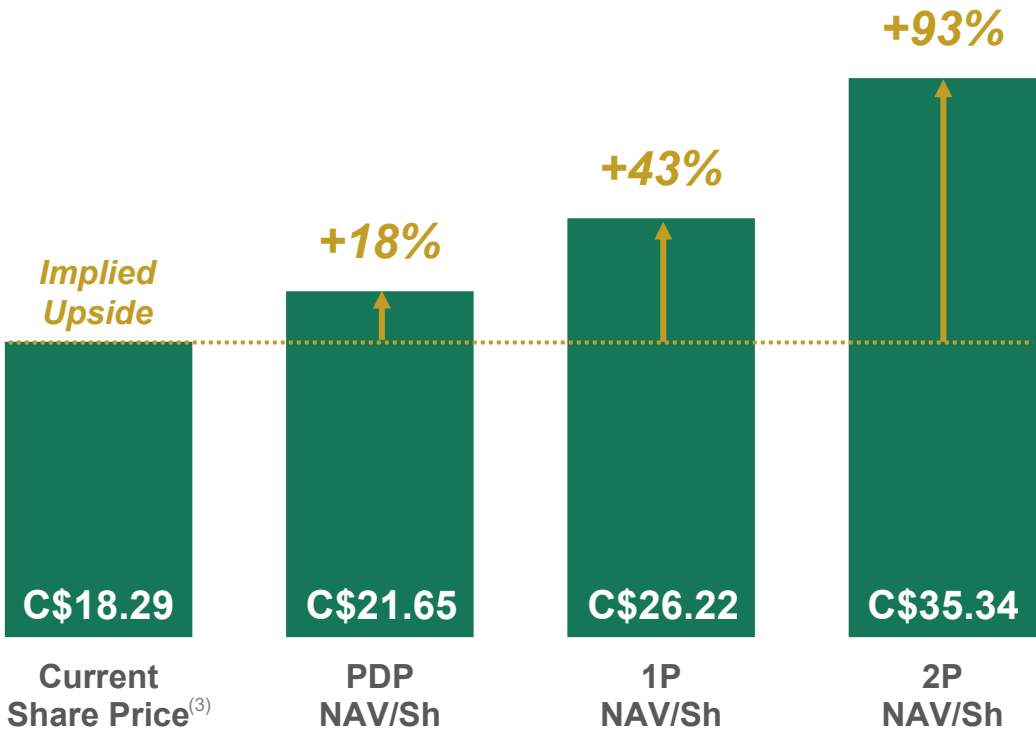

# High-Quality, Undervalued Portfolio

A robust foundation designed for long-term sustainability, with upside potential

	PDP Proved, Developed & Producing	1P Proved	2P Proved + Probable
2024 Reserves (boe) <sup>(1)</sup>	72 million	112 million	170 million

RESERVES NET PRESENT VALUE AFTER TAX  
AT FLAT \$70/BBL BRENT OIL PRICE DECK<sup>(2)</sup>

46 blocks

Across three active, producing basins

10.3 years of 2P reserve life<sup>(1)</sup>

Long-life reserves base

Big ‘E’ unbooked upside

View as free option on high-impact exploration opportunities

# Return of Capital Track Record

Demonstrated long-term track record of returning capital to shareholders through share repurchases & dividends

Cumulatively since 2019, Parex expects to return ~C\$2 billion by the end of 2025<sup>(1)</sup>

See "Forward-Looking Statements and Financial Outlook" advisory.  
(1) Forecast based on FY 2025 midpoint guidance at \$70/bbl Brent crude oil price (see January 14, 2025 news release); current dividend based on C\$0.385 per share quarterly dividend; US\$ value converted at 0.7092.

# ESG Performance

Established strong social license and earned external recognition as a top-quartile ESG performer

## ENVIRONMENT

- Reduced GHG intensity by 29% (scope 1 & 2) from 2019 baseline while absolute emissions increased
- Avoided ~3,000 tCO<sub>2</sub>e by connecting the Cabrestero field to the electricity grid
- Planted 31,000+ native tree species in Colombia

## SOCIAL

- Work for Taxes investments on road construction, machinery & educational technology
- Supported over 120,000 people through social investments
- Achieved strong safety performance across all indicators in 2024

## GOVERNANCE

- 9 out of 10 independent directors
- 33% of directors are women
- 15% of 2024 variable compensation linked to ESG performance

## EXTERNAL RECOGNITION

Morningstar Sustainalytics

**27.3 Rating<sup>(1)</sup>**

Top quartile among global E&Ps  
Scale: 0 to 50 risk high exposure

**AA Rating<sup>(2)</sup>**

Scale: AAA to CCC

(1) As of July 2025, Parex received an ESG Risk Rating of 27.3 from Morningstar Sustainalytics and was assessed to be at Medium Risk of experiencing material financial impacts from ESG factors. In no event the presentation shall be construed as investment advice or expert opinion as defined by the applicable legislation. Such information and data are proprietary of Sustainalytics and/or its third-party suppliers and are provided for informational purposes only. (2) As of July 2025, Parex received an MSCI ESG Rating of AA (on a scale of AAA-CCC). ## Conventional Oil & Gas in Colombia

*Colombia is underexploited with substantial resource potential*

- ✓ Proven 15-year operating track record in Colombia
- ✓ Strong assets with superior development economics
- ✓ Applying secondary recovery & EOR to improve recovery factors

## Transformational Exploration Potential

*Colombia offers world-class, onshore exploration opportunities*

- ✓ Largest independent oil & gas landholder in all of Colombia
- ✓ Proven exploration track record
- ✓ Accessing game-changing prospects in the Llanos Foothills

## Return of Capital Track Record

*Colombia provides strong profitability and robust free cash flow generation*

- ✓ Industry-leading netbacks
- ✓ Shareholder focused and debt free
- ✓ On track to return ~C\$2 billion to shareholders since 2019

This presentation is provided for informational purposes only as of January 13, 2026 is not complete and may not contain certain material information about Parex Resources Inc. ("Parex" or the "Company"), including important disclosures and risk factors associated with an investment in Parex. This presentation does not take into account the particular investment objectives or financial circumstances of any specific person who may receive it and does not constitute an offer to sell or a solicitation of an offer to buy any security in Canada, the United States or any other jurisdiction. The contents of this presentation have not been approved or disapproved by any securities commission or regulatory authority in Canada, the United States or any other jurisdiction, and Parex expressly disclaims any duty on Parex to make disclosure or any filings with any securities commission or regulatory authority, beyond that imposed by applicable laws.

## Forward-Looking Statements and Financial Outlook

Certain information regarding Parex set forth in this presentation contains forward-looking statements that involve substantial known and unknown risks and uncertainties. The use of any of the words "plan", "expect", "prospective", "project", "intend", "believe", "should", "anticipate", "estimate", "forecast", "guidance", "budget" or other similar words, or statements that certain events or conditions "may" or "will" occur are intended to identify forward-looking statements. Such statements represent Parex's internal projections, estimates or beliefs concerning, among other things, future growth, results of operations, production, future capital and other expenditures (including the amount, nature and sources of funding thereof), competitive advantages, plans for and results of drilling activity, environmental matters, business prospects and opportunities. These statements are only predictions and actual events or results may differ materially. Although the Company's management believes that the expectations reflected in the forward-looking statements are reasonable, it cannot guarantee future results, levels of activity, performance or achievement since such expectations are inherently subject to significant business, economic, competitive, political and social uncertainties and contingencies. Many factors could cause Parex's actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, Parex.

In particular, forward-looking statements contained in this presentation include, but are not limited to, statements with respect to the Company's focus, growth, plans, priorities and strategies and the benefits to be derived from such plans; the focus of Parex's 2025 program, its priorities and expectations with respect thereto, the fundamentals thereof and the anticipated benefits to be derived therefrom; Parex's 2026 core focus areas, Parex's 2025 guidance, including its anticipated brent crude oil average price, production expectations, funds flow provided by operations netback, expectations and beliefs with respect to Parex's budget framework, funds flow provided by operations, capital expenditures (including the allocation thereof), free funds flow, and the aggregate amount of dividends that may be paid; expectations and beliefs with respect to Parex's 2025 and 2026 activity plan, including work at the Farallones, Southern Llanos, the Putumayo basin, LLA-32, LLA-34, Cabrestero and Capachos, including the anticipated timing thereof and the anticipated benefits to be derived therefrom; expectations and beliefs about Parex's 2025 and 2026 capital program including expenditures and allocation; the expectations and beliefs related to Parex's partnership with Ecopetrol and the transactions, farm-ins and other matters related thereto and the anticipated benefits to be derived therefrom. In addition, statements relating to "reserves" are by their nature forward-looking statements, as they involve the implied assessment, based on certain estimates and assumptions that the reserves described can be profitably produced in the future. The recovery and reserve estimates of Parex's reserves provided herein are estimates only and there is no guarantee that the estimated reserves will be recovered. Statements relating to "reserves" or "resources" are forward-looking statements, as they involve the implied assessment, based on estimates and assumptions that the reserves and resources described exist in the quantities predicted or estimated and can be profitably produced in the future.

Although the forward-looking statements contained in this presentation are based upon assumptions which Management believes to be reasonable, the Company cannot assure investors that actual results will be consistent with these forward-looking statements. With respect to forward-looking statements contained in this presentation, Parex has made assumptions regarding, among other things: current and anticipated commodity prices and royalty regimes; availability of skilled labour; timing and amount of capital expenditures; future exchange rates; the price of oil, including the anticipated Brent oil price; the impact of increasing competition; conditions in general economic and financial markets; availability of drilling and related equipment; effects of regulation by governmental agencies; receipt of partner, regulatory and community approvals; royalty rates; future operating costs; uninterrupted access to areas of Parex's operations and infrastructure; recoverability of reserves and future production rates; the status of litigation; timing of drilling and completion of wells; on-stream timing of production from successful exploration wells; operational performance of non-operated producing fields; pipeline capacity; that Parex will have sufficient cash flow, debt or equity sources or other financial resources required to fund its capital and operating expenditures and requirements as needed; that Parex's conduct and results of operations will be consistent with its expectations; that Parex will have the ability to develop its oil and gas properties in the manner currently contemplated; that Parex's evaluation of its existing portfolio of development and exploration opportunities is consistent with its expectations; current or, where applicable, proposed industry conditions, laws and regulations will continue in effect or as anticipated as described herein; that the estimates of Parex's production and reserves volumes and the assumptions related thereto (including commodity prices and development costs) are accurate in all material respects; that Parex will be able to obtain contract extensions or fulfill the contractual obligations required to retain its rights to explore, develop and exploit any of its undeveloped properties; that Parex will have sufficient financial resources in the future to pay a dividend and repurchase its shares in the future; that the Board will declare dividends in the future; and other matters.

These forward-looking statements are subject to numerous risks and uncertainties, including but not limited to, the impact of general economic conditions in Canada and Colombia; prolonged volatility in commodity prices; industry conditions including changes in laws and regulations including adoption of new environmental laws and regulations, and changes in how they are interpreted and enforced in Canada and Colombia; determinations by OPEC and other countries as to production levels; competition; lack of availability of qualified personnel; the results of exploration and development drilling and related activities; obtaining required approvals of regulatory authorities in Canada and Colombia; risks associated with negotiating with foreign governments as well as country risk associated with conducting international activities; volatility in market prices for oil; fluctuations in foreign exchange or interest rates; environmental risks; changes in income tax laws or changes in tax laws and incentive programs relating to the oil industry; changes to pipeline capacity; ability to access sufficient capital from internal and external sources; failure of counterparties to perform under contracts; risk that Brent oil prices are lower than anticipated; risk that Parex's evaluation of its existing portfolio of development and exploration opportunities is not consistent with its expectations; risk that initial test results are not indicative of future performance or ultimate recovery; the risk that other zones to be tested do not contain the expected hydrocarbon bearing formations; the risk that Parex's 2025 program may not lead to the benefits anticipated; the risk that Parex's 2025 financial and operating results may be less favorable than anticipated; the risk that Parex's tax position may not offset higher production and G&A per unit expenses; the risk that Parex's excess free funds flow may not be used for share repurchases or to further strengthen its balance sheet; the risk that the Company may not submit a notice of intention to make a normal course issuer bid to the Toronto Stock Exchange in 2025; the risk that the Company may not draw on its Credit Facility when anticipated; the risk that Parex may not have sufficient financial resources in the future to pay a dividend or repurchase its shares; the risk that the Board may not declare dividends in the future or that Parex's dividend policy changes; and other factors, many of which are beyond the control of the Company. Readers are cautioned that the foregoing list of factors is not exhaustive. Additional information on these and other factors that could affect Parex's operations and financial results are included in reports on file with Canadian securities regulatory authorities and may be accessed through the SEDAR website ([www.sedarplus.ca](http://www.sedarplus.ca)).

Management has included the above summary of assumptions and risks related to forward-looking information provided in this presentation in order to provide shareholders with a more complete perspective on Parex's current and future operations and such information may not be appropriate for other purposes. Parex's actual results, performance or achievement could differ materially from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurance can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do, what benefits Parex will derive. These forward-looking statements are made as of the date of this presentation and Parex disclaims any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or results or otherwise, other than as required by applicable securities laws.

This presentation contains a financial outlook, in particular: Parex's 2025 guidance, including its anticipated brent crude oil average price, production, funds flow provided by operations netback, funds flow provided by operations, capital expenditures (including the allocation thereof), free funds flow, surplus and the aggregate amount of dividends that may be paid; and Parex's 2025 capital expenditure breakdown. Such financial outlook has been prepared by Parex's management to provide an outlook of the Company's activities and results. The financial outlook has been prepared based on a number of assumptions including the assumptions discussed above and with respect to the costs and expenditures to be incurred by the Company, capital equipment and operating costs, foreign exchange rates, taxation rates for the Company, general and administrative expenses and the prices to be paid for the Company's production.

This presentation contains information that may be considered a financial outlook under applicable securities laws about the Company's potential financial position, including, but not limited to: the anticipated amount of capital expenditures required to begin Parex's Phase I development and exploration activities in the Putumayo basin and the anticipated timing thereof; the future development capital associated with Parex's 2025 activity plan set forth in this presentation, all of which are subject to numerous assumptions, risk factors, limitations and qualifications, including those set forth herein. The actual results of the operations of the Company and the resulting financial results will vary from the amounts set forth in this presentation and such variations may be material. This information has been provided for illustration only and with respect to future periods are based on budgets and forecasts that are speculative and are subject to a variety of contingencies and may not be appropriate for other purposes. Accordingly, these estimates are not to be relied upon as indicative of future results. Except as required by applicable securities laws, the Company undertakes no obligation to update such financial outlook. The financial outlook contained in this presentation was made as of the date of this presentation and was provided for the purpose of providing further information about the Company's potential future business operations. Readers are cautioned that the financial outlook contained in this presentation is not conclusive and is subject to change.

Management does not have firm commitments for all of the costs, expenditures, prices or other financial assumptions used to prepare the financial outlook or assurance that such operating results will be achieved and, accordingly, the complete financial effects of all of those costs, expenditures, prices and operating results are not objectively determinable. The actual results of operations of the Company and the resulting financial results will likely vary from the amounts set forth in the analysis presented in this presentation, and such variation may be material. The Company and its management believe that the financial outlook has been prepared on a reasonable basis, reflecting the best estimates and judgments, and represent, to the best of management's knowledge and opinion, Parex's expected expenditures and results of operations. However, because this information is highly subjective and subject to numerous risks including the risks discussed above, it should not be relied on as necessarily indicative of future results. Except as required by applicable securities laws, Parex undertakes no obligation to update such financial outlook.

**Non-GAAP and Other Financial Measures Advisory**

This presentation uses various "non-GAAP financial measures", "non-GAAP ratios", "supplementary financial measures" and "capital management measures" (as such terms are defined in National Instrument 52-112 – Non-GAAP and Other Financial Measures Disclosure).

Such measures are not standardized financial measures under IFRS, and might not be comparable to similar financial measures disclosed by other issuers. Such financial measures should not be considered as alternatives to, or more meaningful than measures determined in accordance with GAAP. These measures facilitate management's comparisons to the Company's historical operating results in assessing its results and strategic and operational decision-making and may be used by financial analysts and others in the oil and natural gas industry to evaluate the Company's performance. Further, management believes that such financial measures are useful supplemental information to analyze operating performance and provide an indication of the results generated by the Company's principal business activities. Please refer to the Company's Management's Discussion and Analysis of the financial condition and results of operations for the period ended September 30, 2024 dated November 5, 2024, which is available at the Company's website at [www.parexresources.com](http://www.parexresources.com) and on the Company's profile on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca) for additional information about such financial measures, including reconciliations to the nearest GAAP measures, as applicable.

Set forth below is a description of the non-GAAP financial measures, non-GAAP ratios, supplementary financial measures and capital management measures used in this presentation.

**Non-GAAP Financial Measures**

Free funds flow, is a non-GAAP financial measure that is determined by funds flow provided by operations less capital expenditures. The Company considers free funds flow to be a key measure as it demonstrates Parex's ability to fund return of capital, such as the NCIB and dividends, without accessing outside funds.

Capital Expenditures, is a non-GAAP financial measure which the Company uses to describe its capital costs associated with oil and gas expenditures. The measure considers both property, plant and equipment expenditures and exploration and evaluation asset expenditures which are items in the Company's statement of cash flows for the period.

**Non-GAAP Ratios**

Funds flow provided by operations netback ("FFO netback"), is a non-GAAP ratio that includes all cash generated from operating activities and is calculated before changes in non-cash working capital, divided by produced oil and natural gas sales volumes. The Company considers FFO netback to be a key measure as it demonstrates Parex's profitability after all cash costs relative to current commodity prices.

Funds flow provided by operations per share, is a non-GAAP ratio that is calculated by dividing funds flow provided by operations by the weighted average number of basic and diluted shares outstanding.

Free Funds flow per share, is a non-GAAP ratio that is calculated by dividing free funds flow by the weighted average number of basic and diluted shares outstanding.

**Capital Management Measures**

Funds flow provided by operations is a capital management measure that includes all cash generated from operating activities and is calculated before changes in non-cash working capital. The Company considers funds flow provided by operations to be a key measure as it demonstrates Parex's profitability after all cash costs relative to current commodity prices.

**Supplementary Financial Measures**

"Dividends per share" is comprised of dividends declared as determined in accordance with IFRS, divided by the number of shares outstanding at the applicable dividend record date.

"Dividend yield" is defined as annualized dividends per share divided by Parex's share price.

**Distribution Advisory**

The proposed aggregate annualized regular dividend payments of approximately US\$105 million in 2025 remain subject to the approval of the Board of Directors of Parex and the declaration of any such dividends is subject to a number of other assumptions and contingencies, including commodity prices. The Company's future shareholder distributions, including but not limited to the payment of dividends and the acquisition by the Company of its shares pursuant to a normal course issuer bid, if any, and the level thereof is uncertain. Any decision to pay further dividends on the common shares (including the actual amount, the declaration date, the record date and the payment date in connection therewith and any special dividends) or acquire shares of the Company will be subject to the discretion of the Board of Directors of Parex and may depend on a variety of factors, including, without limitation the Company's business performance, financial condition, financial requirements, growth plans, expected capital requirements and other conditions existing at such future time including, without limitation, contractual restrictions and satisfaction of the solvency tests imposed on the Company under applicable corporate law. Any purchases of common shares pursuant to a normal course issuer bid is subject to all required regulatory approvals. There can be no assurance that the Company will pay dividends or repurchase any shares of the Company in the future. The payment of dividends to shareholders is not assured or guaranteed and dividends may be reduced or suspended entirely. In addition to the foregoing, the Company's ability to pay dividends or acquire shares now or in the future may be limited by covenants contained in the agreements governing any indebtedness that the Company has incurred or may incur in the future, including the terms of the Credit Facility.

**Market, Independent Third Party and Industry Data**

Certain market, independent third party and industry data contained in this presentation is based upon information from government or other independent industry publications and reports or based on estimates derived from such publications and reports. Government and industry publications and reports generally indicate that they have obtained their information from sources believed to be reliable, but none of Parex or its affiliates have conducted their own independent verification of such information. This presentation also includes certain data derived from independent third parties. While Parex believes this data to be reliable, market and industry data is subject to variations and cannot be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties inherent in any statistical survey.

None of Parex or its affiliates have independently verified any of the data from independent third-party sources referred to in this presentation or ascertained the underlying assumptions relied upon by such sources.

Oil and Gas Information

This presentation contains a number of oil and gas metrics, including funds flow provided by operations netback. These oil and gas metrics have been prepared by management and do not have standardized meanings or standard methods of calculation and therefore such measures may not be comparable to similar measures used by other companies and should not be used to make comparisons. Such metrics have been included herein to provide readers with additional measures to evaluate the Company's performance; however, such measures are not reliable indicators of the future performance of the Company and future performance may not compare to the performance in previous periods and therefore such metrics should not be unduly relied upon. Management uses these oil and gas metrics for its own performance measurements and to provide security holders with measures to compare the Company's operations over time. Readers are cautioned that the information provided by these metrics, or that can be derived from the metrics presented in this news release, should not be relied upon for investment or other purposes. A summary of the calculation of funds flow provided by operations netback is provided under "Non-GAAP and Other Financial Measures Advisory".

"BOEs" may be misleading, particularly if used in isolation. A BOE conversion ratio of six thousand cubic feet of natural gas to one barrel of oil equivalent (6 mcf:1 bbl) is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead. Given that the value ratio based on the current price of crude oil as compared to natural gas is significantly different from the energy equivalency of 6:1, utilizing a conversion on a 6:1 basis may be misleading as an indication of value.

References in this presentation to initial production test rates, initial "flow" rates, initial flow testing, and "peak" rates, are useful in confirming the presence of hydrocarbons, however such rates are not determinative of the rates at which such wells will commence production and decline thereafter and are not indicative of long-term performance or of ultimate recovery. While encouraging, investors are cautioned not to place reliance on such rates in calculating the aggregate production for Parex. Parex has not conducted a pressure transient analysis or well-test interpretation on the wells referenced in this presentation. As such, all data should be considered to be preliminary until such analysis or interpretation has been done.

Reserves Advisory

Estimates of reserves set forth in this presentation from the GLJ Report have been prepared by GLJ as of December 10, 2024, with an effective date of September 30, 2024, in accordance with National Instrument 51-101 – Standards of Disclosure for Oil and Gas Activities and the Canadian Oil and Gas Evaluations Handbook and based on GLJ's forecast pricing effective October 1, 2024, which are available at [www.gljpc.com](http://www.gljpc.com). The recovery and reserve estimates of crude oil reserves provided in this news release are estimates only, and there is no guarantee that the estimated reserves will be recovered. Actual crude oil reserves may eventually prove to be greater than, or less than, the estimates provided herein.

It should not be assumed that the estimates of future net revenues presented herein represent the fair market value of the reserves. There are numerous uncertainties inherent in estimating quantities of crude oil, reserves and the future cash flows attributed to such reserves.

"Proved" reserves are those reserves that can be estimated with a high degree of certainty to be recoverable. It is likely that the actual remaining quantities recovered will exceed the estimated proved reserves.

"Probable" reserves are those additional reserves that are less certain to be recovered than proved reserves. It is equally likely that the actual remaining quantities recovered will be greater or less than the sum of the estimated proved plus probable reserves.

Analogous Information

Certain information in this presentation may constitute "analogous information" as defined in NI 51-101. Such information includes production estimates, reserves estimates and other information retrieved from the continuous disclosure record of certain industry participants from [www.sedarplus.ca](http://www.sedarplus.ca) or other publicly available sources. Management of Parex believes the information is relevant as it may help to define the reservoir characteristics and production profile of the noted lands held by Parex, except as otherwise noted. Parex is unable to confirm that the analogous information was prepared by a qualified reserves evaluator or auditor and is unable to confirm that the analogous information was prepared in accordance with NI 51-101. Such information is not an estimate of the production, reserves or resources attributable to noted lands held or to be held by Parex and there is no certainty that the production, reserves or resources data and economic information for the noted lands held or to be held by Parex will be similar to the information presented herein. The reader is cautioned that the data relied upon by Parex may be in error and/or may not be analogous to such lands held or to be held by Parex.

Abbreviations

bbl(s)	barrel(s)	mboe/d	million barrels of oil equivalent per day
bbl(s)/d or bopd	barrel(s) of oil per day	mcf/d	thousand cubic feet per day
Mmbbl	million barrels	Mmcf/d	million cubic feet per day
kbbbl/d	thousand barrels of oil per day	MM	millions
BOE or boe	barrel of oil equivalent	W.I.	working interest
Mmboe	million barrels of oil equivalent	Brent	Brent Ice
boe/d	barrels of oil equivalent per day	FFO	funds flow provided by operations
kboe/d	thousand barrels of oil equivalent per day	FFF	free funds flow
Bfpd	barrels of fluid per day	tCO2e	tonnes of carbon dioxide equivalent
